

Figure 1: A vertical plot showing the distribution of the number of vertices in the largest component of a graph. The x-axis is labeled 'E' and ranges from 0 to 100. The y-axis is labeled 'n' and ranges from 0 to 100. The plot shows a series of green dots representing the distribution, with a red line indicating the expected distribution. The distribution is highly skewed towards the left, with a peak at E=0.
